

Address to the Nation

The Lardish Government

Juanita Banana has resigned as Prime Minister of the country. Her term in office started in January of 2024. According to the Central Lardish Committee, the party in control of the Prime Minister seat, in this case, the Lardish Fritos National Party, and the Lardish National Party, has until July 10, 2024, to choose someone to take over the Prime Minister seat. In the event that the party is unable to meet the deadline, the Central Lardish Committee has agreed to call extraordinary Prime Minister elections.

The former Prime Minister of the USFLR, Juanita Banana, submitted her resignation on July 02, and it was processed by the Lardish Government on July 4.

“I'm resigning rn. Im not a Lardish Republica Public server anymore. It's a total shame”. – Juana Banana in her official resignation letter.

As the president of the country, this was an irrational decision made by one of her tantrums. I still have a great deal of respect for her and agree with her decision to resign. This proves that our country has freedom and she chose that being PM involved a lot of responsibility she wasn't willing to take over.

I wish the best for the future of the country and rest assured that this is not a crisis nor anything to worry about.

Lard Lapudding,

On behalf of the USFLR Government
